Plus organic eggs and seasonal organic vegetables and salads from our recently established market garden. We buy in a small amount of fruit, vegetables and dry goods that we cannot produce ourselves but the philosophy of our farm shop is to produce as much as possible ourselves: we are a traditional farm shop and not a shop on a farm!
- Meat is available in individual cuts and joints from the shop or in discounted 5kg and 10kg freezer boxes to order for collection from the farm or delivered locally.
- Eggs and vegetables are available from the shop or in discounted £10 and £15 boxes for collection from the farm or delivered locally.
